

Mark B. Lagdaan

Address: Villa Sagrada, Baao, Camarines Sur
Phone: 09630168060
Email: marklagdaan606@gmail.com

Objective

Dedicated 3rd Year Computer Engineering student seeking an On-the-Job Training (OJT) position. Aiming to apply theoretical knowledge in web development, network configuration, and embedded systems to real-world technical challenges.

Education

Camarines Sur Polytechnic Colleges (CSPC) Nabua, Camarines Sur
Bachelor of Science in Computer Engineering 2023 – Present

- **Core Competencies:** Computer Hardware, Data Structures, OOP, and Network Design.

ACLC College of Iriga Iriga City
Senior High School - TVL Programming Strand Graduated 2023

Technical Proficiencies

- **Web Development:** Proficient in HTML5, CSS3, JavaScript; server-side scripting with PHP and MySQL.
- **Embedded Systems:** Hands-on experience with Arduino IDE, sensor integration, and circuit prototyping.
- **Networking & Hardware:** Skilled in RJ45 crimping, LAN configuration, and Cisco Packet Tracer.
- **Software Tools:** Competent in VS Code, Git version control, and Microsoft Office Suite.

Academic & Independent Projects

Web-Based Registration & Payment System

- Engineered a full-stack web application using **PHP** and **MySQL** for secure user data storage.
- Designed a user-friendly interface for seamless registration and automated payment logging.

IoT Landslide Monitoring System Concept

- Conceptualized an early-warning system utilizing **Arduino** to detect soil instability.
- Integrated an I2C LCD for real-time visualization and buzzer alerts for safety notifications.

Admin Data Monitoring Dashboard

- Built a centralized dashboard to monitor system activity using **JavaScript** and responsive **CSS**.

Professional Development

- **Safety Officer 2 (SO2 Certification)** – Trained in workplace hazard and risk assessment.
- **ICpEP 2026 General Assembly** – Participant at UNC Naga; focused on future CpE trends.
- **ICpEP 2025 CpELympics** – Competitor at BU Polangui; engaged in technical hardware challenges.

Key Attributes

- Analytical Problem-Solving
- Collaborative Team Player
- Adaptable & Fast Learner
- Strong Technical Writing
